The Text

The Internet

In the past, when people needed information, they used to look in books and magazines. Now, you can go onto internet, also called World Wide Web (WWW).

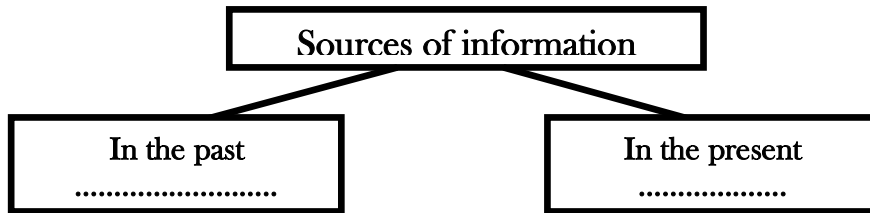

The internet is a large international network of computers. It links web sites and provides information and entertainment. The web was first used by scientists to share ideas. It was invented in 1990 by Tim Burner Lee. When it became public in 1993, it grew very fast. Now, it's used by millions of people around the world. All you need to connect to internet is a computer and telephone line.

There are numerous reasons why people use the internet. Besides surfing to get information, people can study and get diplomas, send photographs or e-cards, download music, join a chat room and of course send e-mails. No need to go to the post office or to the shop to buy things. You can do all that online.

	<p>Dear Vicky,</p> <p>Hello. How are you doing today new pal? I hope this e-mail will meet you in a good health. I'm writing to tell you about myself, my family and my interests.</p> <p>I'm Redouane from Sidi Ali, wilaya of Mostaganem in Northern Algeria. I'm fourteen years old and I'm in my last year middle school. I'm tall and slim. I have short dark hair and big brown eyes and I wear funny glasses. I live with my family in a big house. My father is a dentist and my mother is a teacher of French. I have one brother and two sisters. They are all married.</p> <p>I enjoy playing football and watching thrill movies. I like learning English because it is the most important language in the world and through it, I can communicate with other people from all over the world. I usually ride to school on my bicycle but not when it rains. In summer, I often run in the evening but I never do this in winter. As you can see, I'm sporty.</p> <p>Thanks for reading my words Yours, Redouane</p>
